RIGHTSIZE FREE STUDENT INFORMATION SYSTEM (SIS) AND DISTANCE EDUCATION SOFTWARE FOR PUBLIC AND PRIVATE SCHOOLS

Attached is a letter from RightSize Education Technologies, Inc. presenting their latest proposal on SPLAT Student Information System (SIS) with SPLAT Courses for distance learning support.
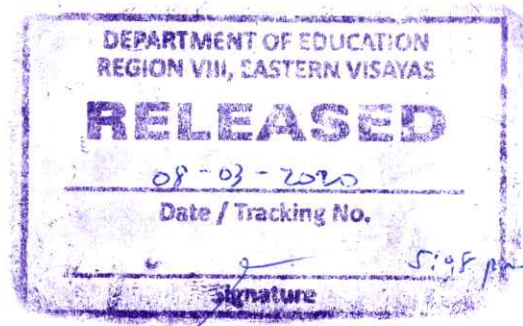

The goal of SPLAT includes:
- Increase student performance by improving parent awareness and participation in the learning process.
- Allow learners with constraint budgets to safely continue their education even with limited internet access and without requiring laptops or tablets.
- Provide tools for teachers to reduce their administrative burden so they can spend more time preparing and teaching.
- Support Deped with school forms and standardized reporting. Every component of SPLAT has been engineered to meet or exceed RA 10173, the Data Privacy Act.

To learn more about SPLAT Student Information System (SIS) and SPLAT Courses, you may attend their free webinar which is hosted live every Tuesday at 9:00 am which includes live demo of the software. You may sign-up at https://splat-ph.com /demo.

Participation of DepEd personnel shall be subjected to the provisions of DepEd Order No. 9, s. 2005 entitled *Instituting Measures to Increase Engaged Time-on-Task and Ensuring Compliance Therewith.*

Considering that this is an Advisory, Schools Division Superintendents and RO Division Chiefs are given the discretion to act on this matter.

Dear Dr. Uytico,

Good day!

RightSize is pleased to present our LATEST proposal for our **SPLAT Student Information System** (SIS) with **SPLAT Courses** for distance learning support.

RightSize Education Technologies, Inc., is a software development company located in Pasig City. We are part of RightSize which has been in Ortigas Center for 14 years and the US for 25 years

With many public and private schools facing the challenges of distance learning under the "new normal," RightSize Education Technologies, Inc., is pleased to introduce SPLAT. SPLAT (Supporting Parents, Learners, Administrators and Teachers) and SPLAT Courses are designed to support the Philippine Learning Continuity Plan (LCP) of the Department of Education in response to the challenges brought about the COVID-19 pandemic.

We understand the healthcare challenges and the need for ongoing education while not creating a "digital divide." Our software allows teachers to distribute textbook sections, presentations and lectures to learners who have only limited and periodic internet access and a shared Android phone. We have refined our technology over three years of working with provincial DepEd schools to use very little internet on a budget phone while ensuring extremely secure data. In addition to lessons, our SPLAT Courses module includes a robust offline quiz and exam engine with robust anti-cheating technology.

The SPLAT goals include:
- Increase student performance by improving parent awareness and participation in the learning process.
- Allow learners with constrained budgets to safely continue their education even with limited internet access and without requiring laptops or tablets.
- Provide tools for teachers to reduce their administrative burden so they can spend more time preparing and teaching.
- Support DepEd with school forms and standardized reporting. Every component of SPLAT has been engineered to meet or exceed RA 10173, the Data Privacy Act.

To learn more about SPLAT Student Information System (SIS) and SPLAT Courses, please attend our free webinar which is hosted live every Tuesday at 9:00 am. It includes a live demo of the software. Note that the webinar presentation starts promptly on time. The first five minutes includes very important content and late attendees won't be accommodated. Webinar sign-up at https://splat-ph.com/demo. You are most welcome to invite other educators. or

SPLAT is completely offered for FREE to all elementary, junior and senior high schools in public and private schools.

Please contact Nilda de Vera, Project Champion at Nilda.deVera@RightSize.com or 0922-886-5144 / 0995-275-8429 or John Cauzon, Head of Support at John.Cauzon@RightSize.com or 0998-376-0950.

We look forward to working with you soon.

Nilda de Vera
