In support of Qatar Foundation's platform during the **UNGA Global Goals week**, **WISE will host a 90-minute session launching the WISE Special Edition E-Book:**

Education Disrupted, Education Reimagined: Thoughts and Responses from Education's Frontline During the COVID-19 Pandemic and Beyond.

Written over the course of the first five months of the COVID-19 pandemic, this special edition E-Book was produced in real time, as WISE, in partnership with Salzburg Global Seminar, convened key stakeholders and education leaders from over 98 countries in a three-part series of global conferences aimed at bringing the global education community together. The result was a contemporary historical record of how schools, NGOs, governments, and international organizations responded to school closures during the crisis and how they are attempting to use this crisis as a springboard to reimagine—and even transform—education in their communities and countries.

The E-Book offers an opportunity to a global audience **to make sense of what happened** but it also offers **a breeding ground of ideas from some of the world's top education thinkers.**

Join us for the launch of this first ever anthology documenting stories from around the globe of delivering education during this unprecedented time in history, and hear from six of our authors who will speak in a panel discussion about the future of education in a post-COVID-19 world, including representatives from BRAC, UNHCR, the Ministry of Education of Sierra Leone, the OECD, Atentamente and Yale University.
