Dear Dir. Uytico :

The Philippine Science Heritage Center (PSHC), under the management of the National Academy of Science and Technology, Philippines (NAST PHL), is the premier science center in the country, mandated by Republic Act No. 9107 to serve as the main repository of the achievements and contributions of Filipino scientists in science and technology. One of the goals of PSHC is to promote S&T to the youth and the general public through different informal activities.

One of PSHC's activities is the **Meet Your Scientists (MYS)** program, wherein renowned Filipino scientists are invited to share their knowledge and experiences on the chosen topic. It also serves as a platform to encourage the youth to pursue a career path in Science, Technology, Engineering, and Mathematics (STEM), increase awareness of the young minds on the given topic, and celebrate the contribution and knowledge of the Filipino scientists.

In celebration of World Wildlife Day, PSHC will hold a special **MYS on Wildlife on 3 March 2021, Wednesday, 2:00 PM, via Zoom**. May we ask for your assistance in disseminating this information to the students and teachers under your supervision? Interested participants may register for free at bit.ly/MYSWildlife.

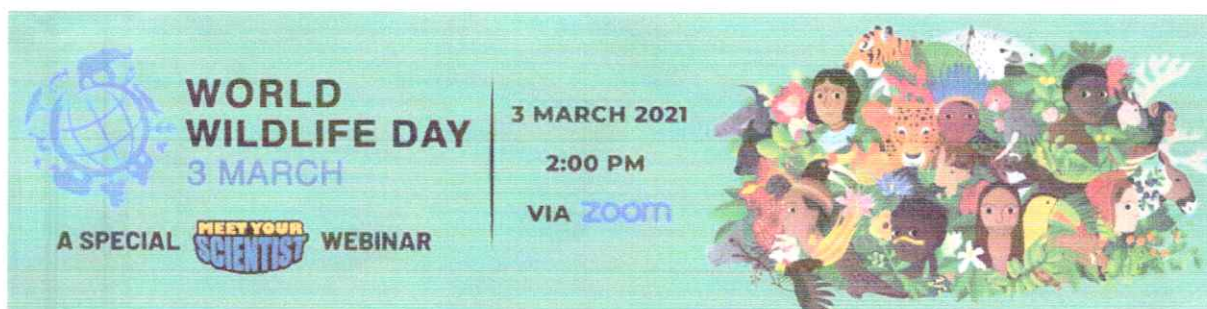

For questions and queries, you may contact us at salinlahi@nast.dost.gov.ph.

Thank you and stay safe.

Sincerely,

L. Samarita-Domingo
