SUBJECT :

**IDENTIFICATION OF SPECIFIC PARTICIPANTS FOR  
THE CONDUCT OF THE SHS ACTIVITIES**

DATE :

October 20, 2022

This pertains to the previous instruction of former Usec. Jose Ernesto B. Gaviola on the approved conduct of the following activities for Senior High School (SHS) Pedagogical Retooling in Mathematics, Languages and Science (PRIMALS).

For the above scheduled activity, the Supplementary Materials will be validated by LREs and its results will be incorporated by the respective writers in the enhanced Supplementary Materials.

- (b) National Workshop on the Finalization of SHS Supplementary Materials for Selected Specialized Subjects (Phase 1) Hybrid, December 5-9, 2022 (change to November 28-December 2, 2022)**

**OFFICE OF THE UNDERSECRETARY FOR CURRICULUM AND INSTRUCTION**

However, DepEd Order No. 34 s. 2022 or the *School Calendar and Activities for the School Year 2022-2023) Part II (I)* states that *School day is a day devoted to instructionally relevant activities pursuant to engaging students in learning the lessons of the curriculum.* This provision provides that school days are devoted to instructionally relevant activities that support learners in attaining the learning standards. Therefore, teachers shall be devoted to instructionally relevant activities in learning delivery of the curriculum.

This Office recognizes and supports the implementation of the above policies. However, may we respectfully request for reconsideration due to the following reasons:

- a. the teacher-writers of TVL Supplementary Materials are highly specialized in the learning area and updated in TVL knowledge and skills;
- b. the identified writers are all teachers even from the time that the materials were initially conceptualized;
- c. the writers were provided with orientation prior to the development of the materials;
- d. the supplementary materials are now on the final stage of finalization and identifying new writers (i.e., non-teaching personnel) at this stage may result to a different perspective and context and possibility of "overhauling" the materials;
- e. the experts of the learning area already validated the materials; and
- f. the workshop activity is *hybrid* so the teachers who will attend in-person can still provide asynchronous activities for their learners.

Given the above justifications, we hope that these will merit your consideration.

Attached are the approved Activity Request and List of Teacher-Participants as Annex A for reference.

For consideration and approval.
