The University of the Philippines National Institute for Science and Mathematics Education Development (UP NISMED) is celebrating its 58<sup>th</sup> Anniversary this month with the theme: *STEM Education for Future-Ready Citizens: Challenges and Ways Forward*.

As part of the celebration, a public lecture and launching of new NISMED resources will be held on 22 November 2022 from 8:30 a.m. to 12:00 p.m. at the NISMED Auditorium, UP Campus, Diliman. Those who will not be able to participate in person may attend online via Zoom and FB Live. The event will be streamed live on the FB pages of [UP NISMED](#), [Go Teacher Go](#), and [KaSaMa Teachers Community](#).

We are living in a rapidly changing world. We need to equip ourselves with a new set of skills in science, technology, engineering and mathematics. Thus, the goal of the public lecture is to highlight the critical role of STEM education in meeting the challenges of the future.

In this regard, I would like to invite you, your teachers, and students to the lectures by Dr. Carol O'Donnell, Director of Smithsonian Science Education Center, and Dr. Gay Jane P. Perez, Deputy Director General of Philippine Space Agency.

To join us in this event, please register for FREE through this link: <https://bit.ly/58NISMED> on or before 21 November 2022 (5:00 p.m.). A certificate of attendance will be given to participants who registered and answered the evaluation form. We hope to see you all.

Very truly yours,

  
SHERYL LYN C. MONTEROLA, Ph.D.  
Director
