SUBJECT : **TRAINING ON COMPREHENSIVE SEXUALITY
EDUCATION (CSE) FOR SUPERVISORS AND TEACHERS
IN SAMAR AND SOUTHERN LEYTE**

DATE : October 3, 2023

Teenage pregnancy has been regarded as a national social emergency in the Philippines as adolescent birth rates over the past decade rose to the highest spot among ASEAN countries. To support the government's measures on teenage pregnancy prevention, the Joint Programme on Accelerating the Reduction of Adolescent Pregnancy in Samar and Southern Leyte was launched early this year in Tacloban City. The project aims to (1) improve access of the adolescent population to sexual and reproductive health (SRH) services and information; (2) raise awareness among adolescents on their sexual and reproductive health and rights; and (3) enhance leadership and governance on Adolescent Sexual and Reproductive Health (ASRH). The Joint Program is funded by the Korea International Cooperation Agency (KOICA) and will be implemented in the two pilot provinces.

One of the components of the Joint Program is the training of supervisors and school teachers on CSE that aims to strengthen their capacity in providing quality sexual reproductive health education in schools. At the end of the training, participants are expected to:

1. identify framework, standards, core contents, and learning competencies of the enhanced CSE;
2. develop lesson plans/lesson guides integrating CSE content and messages;
3. simulate learner-centered pedagogies and interactive teaching methodologies explored in various CSE resources;
4. discuss the monitoring and evaluation tools of CSE; and
5. formulate local action plans for the rollout of CSE program in schools.

The activity is part of the CSE implementation Roadmap that strengthens the curriculum support system of CSE in schools. Organized by United Nations Population Fund (UNFPA) Philippines and Center for Health Solutions and Innovations (CHSI) Philippines, in partnership with DepEd Region 8 and the Provincial Governments of Samar and Southern Leyte, with support from the
