**ONLINE WORKSHOP ON BREACH RESPONSE AND CYBERSECURITY
THREATS & ATTACKS**

Attached is a communication from Rebecca M. Santos, CEO/President, Yisrael Solutions and Training Center, Inc., regarding the **Online Workshop on Breach Response and Cybersecurity Threats & Attacks** on **February 11-13, 2026, via Zoom**.

This activity is designed to minimize the risk of employees falling victim to phishing or social engineering tactics, which could result in data breaches compromising the organization's systems.

Yisrael Solutions and Training Center, Inc. invites interested teachers and school leaders to join the activity.

Participation of both public and private schools shall be subject to the no-disruption-of-classes policy stipulated in DepEd Order No. 9, s. 2005 entitled Instituting Measures to Increase Engaged Time-on-Task and Ensuring Compliance Therewith.

Subject: Invitation to Online Breach Response and Cyber Security Workshop

Dear Sir/Madam,

Greetings!

We are pleased to invite you to our online workshop on "**Breach Response and Cybersecurity Threats & Attacks.**"

Our cybersecurity expert will provide a comprehensive discussion and live demonstration on cyber threats and attacks. The workshop will be held on the proposed dates listed below.

This training aims to reduce the risk of employees falling victim to phishing or social engineering tactics, which could lead to data breaches affecting your organization's systems. It will also help your agency or company prepare for and respond to security breaches in compliance with the notification requirements under the Philippine Data Privacy Act (RA 10173).

The program focuses on educating participants about their role in protecting the **confidentiality, availability, and integrity** of organizational information. Topics include cybersecurity best practices and key threat phases such as system hacking, malware, sniffing, social engineering, and DDoS attacks—along with appropriate response strategies.

The session will include:

- A breach simulation briefing and attack demo
- Discussion on breach notification requirements under RA 10173 and NPC Circular 16-03
- Overview of RA 10175 (Cybercrime Prevention Act)

As part of the simulation, participants will prepare technical and compliance reports based on a mock breach incident. We highly encourage the formation of a **Breach Response Team** (minimum of three members), headed by your **Data Protection Officer (DPO)**, to take part in the **Breach Response Team Report** activity.

Our registration/workshop fee is aligned with the allowable budget under National Budget Circular No. 596 dated January 20, 2025. Please see the attached guidelines issued by the Department of Budget and Management (DBM) for reference

Below are the online workshop class programs/modules:
