SUBJECT : **GUIDELINES ON THE PRODUCTION AND USE OF LANDAS
TOOLKIT FOR PUBLIC STRENGTHENED SENIOR HIGH
SCHOOL (SSHS) PILOT SCHOOLS DURING SY 2025-2026**

DATE : January 5, 2026

1. In line with **Rule V of the Implementing Rules and Regulations (IRR) of the Enhanced Basic Education Act of 2013** which mandates the Department of Education (DepEd) to provide comprehensive career guidance to secondary learners, the **Landas Toolkit** was developed as part of DepEd's Career Guidance Program to help students explore career options, educational tracks, and future opportunities through futures literacy.
2. **Landas Toolkit** is a **career guidance toolkit** designed to help Grades 9-12 learners make informed career decisions. In the context of the Strengthened Senior High School (SSHS) implementation, the toolkit also supports Grades 11-12 learners in making informed choices related to their chosen tracks, specializations, and future career pathways. The **Landas Toolkit** aims to encourage open and reflective conversations among learners, facilitators, and parents/significant adults, and is anchored on **five futures thinking skills**, as shown below:

DRD Email
11/14/26

Futures Thinking Skill	Description
Tanaw or "Imagining Multiple Futures"	Learners can imagine and analyze different possible futures instead of a single fixed path.
Sulyap or "Exploring Opportunities and Trends"	Learners can stay curious, recognize trends, discover technologies, explore emerging opportunities, and take proactive steps towards their futures.
Taya or "Making Decisions in Uncertainty"	Learners demonstrate how to assess options and make informed decisions without knowing all the answers.
Plano or "Planning with Purpose and Intention"	Learners align their future plans with their personal values and goals by integrating prior lessons into a flexible and actionable roadmap for their future.
Yakap or "Embracing Change"	Learners develop a mindset of learning from setbacks and adjusting to change.
